- Comprised a training regimen for a group of 200 young athletes

Key Skills

- Certified in Microsoft Word Expert, Excell, and PowerPoint
- Baseline experience in SolidWorks
- Certified in MATLAB
- Data analysis
- Broad understanding of math and physics
- Experience with Windows, MacOS, and some Linux

About Me

I am a dedicated and adaptable individual and student. Given my unique training as an Eagle Scout along with experience in leadership and working with large teams. I am eager to integrate my diverse education into innovative and exciting projects. My passion for engineering continues to grow and I am excited to contribute meaningfully to an engineering endeavor. My desire after graduation is to design parts for large manufacturing and industrial processes.
